HuggingFace

PROJECTS

Lost Horizon (Godot Engine, GDScript)

2025

- Developed a 2D platformer game with exploration, combat, and puzzle-solving features.
- Implemented enemy AI, level transitions, and a save/load system for enhanced gameplay.

Zentry (ReactJS, TailwindCSS, GSAP)

2025

- Built a responsive single-page web application using modern UI tools.
- Used GSAP for smooth scroll-based animations to increase user interactivity.

Student Management System (MERN Stack)

2022

- Created a full-stack portal using MongoDB, ExpressJS, ReactJS, and NodeJS.
- Implemented secure login, role-based access, and real-time CRUD operations.

INTERNSHIP

IT Services, Government College University

2024

Faisalabad, Pakistan

Networking Intern

- Configured and troubleshot routers, switches, and firewalls to ensure network performance.
- Maintained wired/wireless networks and documented configurations for system upgrades.

CERTIFICATIONS

UI/UX Design & Photoshop — Corvit Systems (2025)

Introduction to UI/UX Design — Le Wagon (2024)

Basics of Python — UniAthena (CIQ) (2024)

Web & Mobile App Development — Saylani Mass IT Training (Completed: 2022)

EXHIBITIONS & PRESENTATIONS

INNOVATIVE LYALLPUR 3.0

Project Presenter — Lost Horizon Game

Faisalabad, Pakistan

2025

- Presented Lost Horizon, a 2D platformer game, at The University of Faisalabad.
- Showcased exploration, AI-driven enemies, and puzzle mechanics.
- Earned recognition for technical execution and creative design.

EXTRACURRICULAR
