Professional Summary

Recent Information Technology graduate with practical experience in full-stack web development, mobile application development, and AI integration. Developed 3+ major applications using MERN stack, React Native, and modern web technologies. Built applications managing 100+ records with 95% uptime, integrated OpenAI APIs, and deployed solutions on Firebase serving 500+ users. Completed networking internship maintaining infrastructure for 500+ campus users with 99.5% network availability.

Education

Government College University Faisalabad <i>Bachelor of Science in Information Technology</i> - CGPA: 3.57/4.0 - Relevant Coursework: Data Structures, Algorithms, Database Management, Web Development, Software Engineering	Faisalabad, Pakistan 2021 – 2025
---	-------------------------------------

Technical Skills

Programming Languages: JavaScript, Python, Java, C++, SQL, GDScript
Frontend Technologies: HTML5, CSS3, React.js, Next.js, Redux, Tailwind CSS, Bootstrap, GSAP, React Native
Backend Technologies: Node.js, Express.js, REST APIs, Firebase, JWT Authentication
Databases: MongoDB, MySQL, Firebase Firestore
AI/Machine Learning: OpenAI API, Large Language Models, RAG, Transformers, Pandas, NumPy, Matplotlib, Groq
Development Tools: Git, GitHub, VS Code, Android Studio, IntelliJ IDEA, Postman, Streamlit, Hugging Face
Design & Other: Adobe Photoshop, Figma, UI/UX Design, Agile Methodology, RESTful API Design

Experience

Networking Intern <i>IT Services Department, Government College University Faisalabad</i> - Configured and maintained 25+ Cisco routers, switches, and firewalls supporting network infrastructure for 500+ campus users - Documented 50+ network configurations and maintenance procedures, reducing troubleshooting time by 40% - Resolved 100+ network connectivity issues and implemented preventive solutions, achieving 99.5% network uptime - Conducted security audits on 15+ network devices and updated firewall rules to prevent 20+ potential security threats	June 2024 – August 2024 Faisalabad, Pakistan
--	---

Projects

Lost Horizon - 2D Platformer Game <i>Godot Engine, GDScript, Custom AI</i> - Developed 3-level Metroidvania-style 2D adventure game with custom physics engine and 3+ unique enemy AI behaviors - Implemented save/load functionality, level progression mechanics, and character movement system with 95% smooth performance - Created 3+ custom enemy AI algorithms and reducing memory usage by 30% - Designed user interface and game mechanics tested by 25+ users with 90% positive feedback rating	2025
Zentry - Animated Web Application <i>React.js, Tailwind CSS, GSAP</i> - Built responsive single-page application with 10+ GSAP animations and interactive UI components for 500+ potential users - Implemented React hooks and state management reducing page load time by 40% and achieving 98% lighthouse performance score - Optimized cross-browser compatibility across 10+ browsers and achieved 100% mobile responsiveness on 5+ device sizes - Integrated 5+ third-party APIs and implemented lazy loading, improving initial load speed by 35%	2025
Student Management System <i>MongoDB, Express.js, React.js, Node.js</i> - Built full-stack application managing 1000+ student records with role-based authentication for 5+ user types - Implemented JWT authentication system and 4+ RESTful APIs, reducing data processing time by 60% - Created real-time dashboard with CRUD operations and reporting features, serving 100+ concurrent users - Optimized MongoDB queries and database indexing, improving system response time by 45%	2022

Certifications

UI and UX Design with Photoshop - Corvit Systems	2025
Introduction to UI/UX Design - Le Wagon	2024
Python Programming Fundamentals - UniAthena (CIQ)	2024
Web and Mobile App Development - Saylani Mass IT Training Program	2022

Achievements and Activities

Innovative Lyallpur 3.0 Tech Fair <i>Presenter - Lost Horizon Game</i> - Presented 2D platformer game featuring custom AI mechanics to 100+ attendees at inter-university technology exhibition - Secured recognition among 50+ project submissions for technical innovation and AI implementation	2025 The University of Faisalabad
CodeCRUD Competition Winner <i>1st Place - IT Quiz Competition</i> - Achieved 1st place with 95% score in department-wide technical competition among 60+ students - Completed advanced assessments covering JavaScript, Python, database management, and software engineering principles	2023 – 2024 GCUF IT Department
